PRACTICAL INFORMATION FOR COMMUNITY
WATER AND WASTEWATER SYSTEMS

You've heard it said that nothing in life is FREE.

We'll think again!

The *Safe Drinking Water Trust eBulletin* is an online toolbox that won't cost you a dime...

How do we do it? Well, it all started more than 25 years ago when the Rural Community Assistance Partnership committed itself to help improve the quality of life in rural America.

With the generous help of grant funds from federal, state and private resources, the *eBulletin* was created to offer you a helping hand.

To use the *eBulletin*, simply complete the subscription form below or go to www.watertrust.org and fill out the online form. Then just sit back and every three weeks we'll send the latest issue right to your email inbox.

We guarantee that we won't sell or share your personal information with anyone else, and if you ever feel that you aren't getting your money's worth, then feel free to unsubscribe at any time.
